Following receipt of Purchaser’s notice, Seller shall promptly examine the applicable components in order to determine whether the defect is a Serial Defect, and shall give written notice to Purchaser of its final determination as promptly as permissible in the exercise of due diligence. If the person or entity for whom or for which Purchaser is building the Project (“**Owner**”) does not accept the conclusion of the Seller, Seller shall cooperate with Purchaser in

attempting to resolve the dispute with the Owner. If Seller can demonstrate to Owner's reasonable satisfaction that a Serial Defect is limited to a specific manufacturing batch or component manufacturer, Seller's obligation to repair or replace the affected component shall be limited to the components in such manufacturing batch or made by such manufacturer. In the case of a defect resulting solely from poor or improper installation by Purchaser, Purchaser shall be responsible for all remediation.
